Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1713

1. Claims 3 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
2. Claim 3 depends from itself.
3. Claim 10 has the language "preferably..." This is indefinite.
4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-10,13-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 669,365.

The rejection as set forth under 35 USC 103 in paper # 10 is deemed proper and is herein repeated. Applicants newly amended claims and the remarks filed in support thereof have been fully considered but have found not persuasive.

Applicants point out that the prior art shows the mica treated with alcohol and in a sand mill. It is argued that this is a wet grinding process contrasted with a dry grinding process. The examiner acknowledges the reference example showing the mica in alcohol. It is maintained however that the art is not limited to this process and is open to other mica species. The examples show many different mica species and the mica of reference example is only used a few of the working examples. Further, many of the claims presented are not limited to dry ground mica. As such it is not clear that a wet

Art Unit: 1713

ground mica would, necessarily, have a regular surface structure, and be excluded by the language of claim 1. Moreover, the EP is not seen to be limited so as to exclude mica having an irregular surface structure.

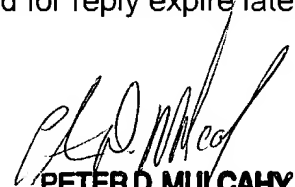

6. Claims 1-10 and 14-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Middlesworth et al.

The rejection as set forth under 35 USC 103 in paper # 10 is deemed proper and is herein repeated. Applicants newly amended claims and the remarks filed in support thereof have been fully considered but have found not persuasive.

Applicants argue that this reference is remote because it does not deal with laser marking or polypropylene films. This is not persuasive. The claims rejected are not limited to laser marking in any way. Polypropylene films are suggested at col. 7 lines 25-30. In view of this disclosure, the rejection is herein maintained.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
